Personally came before me A. Brigham Auditor John Bowen and says on oath that the annexed instrument is just, true, and originell and that he is not indebted to Gov.t — also acknowledges to have received a draft on the Treasurer for thirty nine Dollars & thirty four cents in full for this account and further says that his discharge is lost & cannot be found — that he has not conveyed it to any one; that no person, or persons whatsoever, has any weight to claim either money or Land on account of holding his regular discharge from the Company of P. Dinsmoit, that was stationed at Goliad in the Mo. of December 1835 —
