To the Hon the Board of
Examination & Auditing Ofc

Houston April 6. 1839

The undersigned having presented to your Hon. Board a claim for supplies furnished the Government by Messrs Turner & Woodruff for which Cash was advanced (as appears by Certificate since furnished) and an decision having been made to pay the same in Military Scrip, instead of Promissory Notes, most respectfully requests a reconsideration of the decision, or leave to appeal from it, to His Excellcy. the President.

Most respectfully Your Obt Serv.
Edmund Hall

TX

Mr. Edwd Hall

The President on examination of the papers can find no reasons why the promissory notes of the Govt. should not be paid to Messrs Turner & Woodruff if the Court have heretofore acted upon the principle that all claims for cash actually advanced in the purchase of supplies for the Govt should be paid in said promissory notes, and that all claims for supplies furnished without such actual advance of cash should be paid in Military scrip. It appears from documents that said Turner & Woodruff did advance cash for the articles furnished by them, and the President not knowing the reasons of the Court for making a discrimination between their case & others
