This is to certify that the name of James Brown appears upon an Abstract of the Medical Journal of the Brig of War "Martin" now on the files of the Dept., dated 10th July, 1843, signed by R. M. Clarke, Surgeon of said Vessel, as having been placed on sick Report on the 30th June 1843, with the following Remark appended to his name - "In consequence of the wound he received in the leg, I certify that he will hereafter be incapable of earning his maintenance"

The Report does not state when he rec.d the wound, nor does the Log of the Vessel show, but the inference is that it must have been on the 30th June 1843.

M. C. Hamilton,

(TX) Actg. Sec. Navy Marine

Washington,
Oct May, 1844.
