waggons and Military Stores intending to go from thence to the Government at Washington and report. His sudden death thus hindered his having any settlement with the Department — I, knowing his intention of forwarded to the Quarter Master then at La Grange the waggons, arms &c immediately after my Fathers decease —

I wish to have these Claims of my late Father properly adjusted and presented for acceptance and being advised by W. F. Miller Esqr. to write you upon the subject I would like to know if you will attend to this business for me and upon what terms — also what proof you wish me to adduce — although I suppose that you at Austin can obtain all that may be necessary to prove his claim to pay from the Spring of 41 untile the 24th July 1843

With due Respect

Miles S. Bennet
