Memo —

The Certificate of Public debt issued to Israel Canfield, can be paid at this Office, to the Administrator upon Canfields Estate, upon a Certificate over the Seal of the County Clerk, to the effect that there were debts against the Estate, which would shew a necessity for the administration; also that the Probate Court were cognizant of the existence of the Public debt Certificate and its amount, and that the administrator was authorized to collect the same, and make due returns thereof to the Court. The object of this, is that the Court may know what to hold the administrator accountable for upon a final settlement of the Estate. —
