Irving House
New York Nov 26th 1849

Dear Sir.

I enclose you a duplicate act made out by Joseph Clark of New Orleans and sworn by me to day ~~and~~ requesting my certificate to the same - I suppose it has been presented to you and therefore think it proper you should know what certificate I have put to the same -

I am well satisfied that there is not a just claim against the late Navy of Texas while the same was under command. except those included in the settlement of my accounts by yourself and the last Legislature of Texas - I omitted none that I had any thing to do with -

You will oblige me by sending to me at Washington City - and if your report to the Legislature now in session, as soon as the same is published.

Did Smither & yourself say anything about that pay account of mine - which you declined acting on?

Very Truly
Yours with regard
E W Moore
