

The deed had been sent on with fees of \$2.00 as well as now remember, some months ago. I got through John M. O'Brien Esq. Attorney of this place understanding from him you have been recently elected to the office of Commissioner. I have taken the liberty to write to you - I do so being under the impression that all claims not established of the character of mine would after January next be barred - Losh -

Now I entitles to land by being in the country with the intention of settling before the war?

As per my papers on file show I bought and have received neither land or pay

Your attention will oblige & be appreciated by

Your Obedient Servant
