Huntsville 30th Jany 1853

Dear Swisher

I received yours by last mail and now hasten to comply with your request as far as possible — The Vaccine matter can not be had in this town — some time since when the small pox appeared on the Trinity River I divided amongst the settlements all that I had at the time — If any can be procured elsewhere I will send to you —

You will find enclosed the audited Claims of James Wilson also two others (John Barker and John Colvin) who I have not been able to find in this part of the State — The discharges were given to me for Auditing by the Captain of the Company to which they were attached — I knew them all in 1842 but do not know where the line now

Give my kindest regards to my friends

With much respect
Yours &c
