Requisition for Medicines &c for the use of Surgn Sargeant
1st Camp Independence Feb. 14 1837 Fort.

In the opposite page you will find a requisition for such articles as I deem will be necessary for my use provided I shall occupy the post we have spoken of - for in that case I shall have to attend the Staff and all such small detachments as are occasionally in Camp and not attached to any particular regiment — You can rely upon industry and fidelity on my part if the duty be assigned me in a short time the medical department of the army shall be in the most perfect regularity

With the highest respect
Your friend and obt Servt
