Houston, June 1st. 1837.

The cotton duck for tents put as an item in my a/c. is now at the army; it was purchased at prices varying from 16 to 18 cents per. yd. and the sum total amounts to $6280 as per memorandum book. The original accounts have been mislaid, but the duck is here to shew for itself, and can be valued if the government should not be satisfied with my statement.
