Genl. A. Sidney Johnson is ded, I was in camp the morning, he and Genl. Felix Huston fought a duel The officers of my Regt. Col Rogers & Gillin, & Majr. Gray, my Captain and the entire company, if any those persons are living, I no not where to find them —

There was no person who went from this section of country to Texas during the war but myself that I now off who was attached to the service I could furnish you with the names of a number of persons of my acquaintance, who knew me before the war, and ever since, that I was in the Texas service, from all the circumstances connected with what they saw & head of my stay in Texas during that time —

While I was staying in Texas after the war, the Indians became very troublesome on the frontiers and I went out with a company from Houston who was sent there for protection for the people there, and Frank Lubock who has since been your governor was a member of that company, I got Mr. Guthrie to write to him in regard to this matter, but he said he had forgotten me, as he had most of the company, I am some what so myself I have forgotten names,

There is a Gentleman who lives about forty miles from me, came to Texas while I was there, I want to see him, if can be of ay use to me in the matter —

Mr. Johns You must plead hard you are in a rightious cause hope you will be sucksessfull

Yours Respectfuly, Wm. T. Carter
