enclosed, which gives a account of the who proceeding, I will thank you to read it. Albert Gregg did not see Richard Foucks until 1841 when he returned with Clark Gregg and both stated that Foucks had been in the army. I think this additional proof is sufficient to satisfy you upon the question of identity as that is all that remains to be done. Each of the applicants has one good witness and the affidavits of other persons to make up for the other.

I will thank you for an early reply.

Respectfully

J. W. Thompson
