The undersigned respectfully states, that he was mustered into the service of Texas, in her struggle for independence and seperation from Mexico, on the 15th day of May 1836, in the Company of Capt. James H. Milroy, and served therein for the period of Six Months. He was honorably discharged at Dimmitt's Landing on the Sancera river. He received a Land Warrant, as a bounty, for 640. acres — but was compelled to sell the same, for the merest trifle, to enable him to return to his then home, the State of Indiana. He has recently been informed of the generous provision of the Texas State Legislature, in the passage of the Act of August 1870, by which the Survivors of that struggle for Texan independence are entitled to receive an annual pension of Two hundred and fifty dollars, and hereby makes application for said pension.
