going with the Company with General Houston. Timothy P. Jones was orderly sergeant of the Mustang Company after getting back to San Phillipe on the Brazos River I left the Command, at that Point and went to the Camp of my Father and others who had moved out to Texas That place, and I did not return again to the Company but remained a short while at my Father's Camp and having been commissioned by Genl. Houston I returned to the States to raise troops for the Service in Texas, under the Call of Major Genl Gaines and before we could return again peace was made and I went to Florida My understanding was that my old Company the Mustangs after getting to Nacogdoches was reorganized with Calvin Henderson as Capt. and Timothy P. Jones a Lieut. and was ordered to Washington and there remain until the Government was broken up at Harrisburgh, which was as near as I can remember in March 1836. and further this deponent saith not and that he is not interested herein.
