by the testimony of two witnesses as to his services in the Spring Campaign of 1836, but Mr Zuber failed to get my brothers certificate on account of the Comptroller finding no coroborating record testimony. I have written to the Comptroller by same mail that carries this - referring him to page 937 of Titled and Patented lands published by State authority in 1860 - where will be found my brother's name thus, "Kinard, Michael" opposite the No. 277 - to the left and 320 acres bounty land to the right - this is my brother though one "n" is omitted in spelling the name. I also refer him to page 300 of Burlage and Hollingsworth's Abstract of valid land claims, to the name "Kinnard, Michael" on the left of which is the No. 2126 and on the right 320 acres bounty land. The name is here spelled the way my brother usually spells his name - and the bounty referred to in each book is the bounty land granted him for the ~~Spring~~ three Months service
