Richard Williams

And the said ~~[illegible]~~ on his part states and deposes that the person now before him who has made and signed and acknowledged in his presence the foregoing annexed affidavit with the intention of procuring a pension for his services under Act approved August 18th 1870 is the same Sam Palmer who was with him and was a member of Capt. John M Bradley's company at the seige and reduction of San Antonio de Bexar in the year 1835. That he himself also was a member of said Capt John M. Bradley's company at said seige that he saw the said ~~[illegible]~~ Sam Palmer in the Brazos Fight near Bexar in 1835 participating and doing his part in said Battle, that he knew said ~~[illegible]~~ Palmer in said company at said seige of Bexar during the time named about three months, that himself and said Palmer received honorable discharges for their said services. That he was a member of the same "mess" with said Palmer and thence knows personally the facts he has stated.

Further he believes the said Sam Palmer to be justly entitled to a pension for his services under the provisions of the act granting pensions approved Aug. 18th 1870. Richard Williams
