State of California County of Merced.

Personally appeared before me this day, Wm. G. Rector, a resident of Mariposa County, State aforesaid.

On examination of the person of said E. G. Rector, I find a cicatrice on the under or ulnar side of the left fore arm, about mid-way between the elbow and wrist, that the bone (ulna) was fractured by said wound, to the effect, that spicula of bone escaped through the wound by process of ulceration. That while the use of the arm has not been altogether destroyed, its efficiently has been materially impaired.

I find also that he has a small tumor over the second false rib on the left side, which also seems to be enlarged. Having intimately known the said E. G. Rector for the last eighteen years, I do affirm that has been, and is a constant sufferer from said injury. That he has also dorsal hernia on the left side, which no doubt depends on the loss of nervous sensibility on that side in consequence of said injury.

The said E. G. Rector affirms that he received the above wounds (gunshot) in the battle of San Jacinto, fought between the
