This certifies that ~~we have examined~~ Henry Stout who was a member of Capt James Berlands Company in 1841 or 1842, as shown by accompanying Certificate and finds a Wound in his fore Arm, The Ball entering at about the upper third of the left fore Arm in front and passing out on the back of said Arm near the joint, inflicting thereby a serious wound, and that from continued service, he was confined to his Bed and disabled, the Wound discharging pieces of Bone for several months afterwards and the consequence was that he has disabled from action and hard labor. This 22nd day of December 1874
