my own oxen and returned with him to the army (with the Canon), which was encamped near the head of San Antonio, Then General Sam Houstin was in Command and he sent me home for the purpose of procuring provisions for men coming to the army. In this business I was employed until we had to leave the Country.

The foregoing Statement I Solemnly Swear to true in all respects, to the best of my knowledge and recollection,

Should you believe it necessary to obtain any assistance to secure this pension money, you are hereby authorized to employ it at such expense as may seem just to you to be paid out of the pension money when obtained,

I feel that I am as justly entitled to this pension as any man who served his Country at that day.

Accept my regards renewed and the friendly wishes of the members of my family and I am as ever your friend.
