in your hands within a few days.

About 3 weeks ago, I wrote to the Comptroller, making some inquiries relative to pensions; & have this day received his reply in the form of a circular, containing instructions relating to the proceedure of applicants.

I have thought of sending my petition by some friend who may have business at Austin: but if your charges are not too high, I may do better to put my business in your hands. Please write to me as soon as convenient, & inform me upon what terms you can draw warrants & collect & pay over the first annual payment of pensions.

Respectfully & truly yours.
W. P. Zuber.
