State of Texas }
Travis county } I James T Lytle do hereby affirm that I was a member of Capt Price's company in the spring campaign of 1842 under command of Col Clark L Owen. That I am well acquainted with George W Guthrie who was a member of said company and that during an engagement with the Commancha on the San Antonio River above Calos Ranche I saw the Horse of the said Guthrie shot under him — That the Horse was shot through the Body and I supposed died on the ground but have since learned that he was taken of some 15 miles before he died — I have no doubt but that the horse died of the wound received — and believe him to have been worth one hundred dollars —

James T Lytle
