or Return — Of course this is a case more equitable claim which has to be provided for by a future law — The object of the parties in presenting them to you now is that they may not be postponed; but that they may be reported to the Legislature in such a form and in such manner as you may see proper — you will therefore be pleased to ~~[illegible]~~ them in your Report to the Legislature as claims presented and urged against the State —

Very Respectfully

I. A. Parsons
