Dear Sir
Enclosed I send a copy of Mr J. H. White's letter to me, I do not understand it. It appears that some person has in possession the lost duplicate (forwarded by you to me in April on May last) and has attempted to locate it in my name I have never had it in my possession, and have not written to Mr White anything about any field notes, connected with said duplicate, You will confer a favor by unravelling this mystery for me

Your Friend Truly
