Harrison wants to get a gun to go on the campaign - please to let him have one - I will go his security for its value also ammunition -

There is no news from Fort Leaks - an express from La Baca says that Cos was in Goliad on the 30th. September and has 400 cavalry and [illegible] 000 in Infantry - he makes heavy threats - he says he will march to this place soon -

I am much occupied, but will try and go to Town tomorrow -

The men who are here only wait to organize and see that their arms are all in proper order

[illegible] have no guns, try and get one for Harrison -

Yours,

Mr. S. Fletcher
