Camp on Buffalo Bayou
April 27th 1836

We the undersigned do hereby certify that when The New Port, Kentucky volunteer Company left Washington on the Brazos in the latter part of February last for the rescue of our country=men in the Alamo one of the horses furnished said company at Nacogdoches was incapable of further service; and that William W. Gant of that place furnished us a dark grey American horse in place of the first; and that said horse was worked in our baggage-waggon out to Gonzales. We appraise the said horse belonging to Gant at seventy dollars.

Given under our hands and seals, date above written
