The Certificate of C B Littlefield Secretary &c
is rejected, because it does not state the
time when the Horses were furnished,
and the certificate being dated Feby 6th
1837. the presumption would be that they
were furnished about that time, if such
was the fact, no such authority can be
recognized as the Laws knew no Committee
of Safety in the year 1837.

Besides Mr Stansbury, who the certificate
states to have pressed one of the Horses,
has already given two certificates for Horses
pressed from the same individual, which certificates are annexed, and
it is very possible that the Horses mentioned
in Mr Littlefields certificate are the same
as those receipted for by Capt Stansbury
The two certificates of Capt Stansbury are considered good & will be approved.

Oct 1837.
