procure me a copy of the act, in my favor for Salary in the Revenue Office, which passed in Congress in 1842 – is there not any prospect yet to get that money; you will recollect that the last act which passed congress to pay me in par funds, did not receive the signature of Sam Houston the President, therefore I should not wish a copy of that but the first one which passed and became a law.

Since I left Texas no friend has ever written to me of the ups and downs there I hope you are prospering well after the storm has passed and that all the other friends are doing the same – I am now established 2 years in this place, and would not like to change again with the Treasury Department of Texas.

I forgot to mention that on two lots of my Property in Austin there is a house and that would be rented as soon as the Government returns.?

Your speedy answer, my dear Sir, to the above will very much oblige

Yours truly

H. Huffmeister

TX
