A 1228 to 1230

Wm Long

filed 18 April 1838

Examined and referred to Congress because I know of no law authorising a specific claim to be paid for this kind of service other than $8. per month and 20 cents per day for detached duty & because I wish to bring this class of claims before the attention of Congress in order that some law may be passed to pay this as well as other cases of a similar character and to provide for burying the dead soldiers who die in this place. the charges heretofore made are to extravagant for me to audit. I have the

Claimst Atty Genl

honor in which these two points are referred as the hurry of business prevents me from reporting separately all the important points which occur

all of which is respectfully submitted
