Personally appeared before me A. Brigham Auditor John A Wharton who on oath says: that he has examined this Acct of R Mills & Co against the republic of Texas and believes the whole of it to be just and correct. Many of the Articles he knows were purchased by the officers for the troops & some by himself. The Articles furnished in March were for individuals setting out for the Campaigne and were furnished on the orders of I C Mauson who I know to be Paymaster, and of W J Austin who I know to be an Aid to the Commander in Chief, and a Committee elected by the Citizens, the therefore states that he not only believes the account to be just & true but, chargeable to the Government —
