Brazoria October 7th 1836

In the month of March Wm T Austin came down to this place with authority to provide Goods for Volunteers going to the Army and in conjunction with the Primary Judge, L. C. Manson gave orders on us in favor of a number of persons, the bill of Goods furnished said persons with the order was returned to the Judge to take their receipts for the Goods delivered them, and in many instances such orders have not been returned, the absence of the Judge deprives us of the power of gaining possession of them, which leaves us without some Vouchers.
