Voucher No 20. for $418 25/100 Rejected for want of proper vouchers
~~&~~ article 1st Rules & Regulations of the U. S. Navy under the
Head of Stores & Provisions is as follows, "The Signature
of the Captain shall be affixed to all papers having a
reference to the expenses of the Ships" and upon reference
to the above voucher it will be seen that it has not the appro=
=val of a Commanding officer.

Voucher No. 10. for $25. 13/100, Rejected Because I know of
no Law which allows a Captain of Volunteers on arriving
in the Country to purchase Clothing for his Command
unless by express order, as the Quarter Masters Department
is presumed to be the proper Channel through which
to receive Supplies, no orders for purchasing these articles
are shewn, and if such purchases are recognized, by the
same authority he might have purchased as many Thousands
at the expense of the Government,

Voucher No 11. for $87." Rejected Because there is no
official signature to the Draft, but drawn apparently
by one Citizen on another, Consequently cannot be recogn=
=ised by the Comptroller.

Voucher No 2 for $522. 28/100, Rejected for want of sufficient
evidence, in my opinion, it should be shewn that the
articles were delivered at some Post or to some officer of the
Government authorised to receive them, much is said relative
