-ield and the Articles are waiting the Orders of the Govt.

The Cargo of the Wm. A Turner will however be discharged here except one Load of the Lighter (say 100 Barrels) will be sent to Demitts on La Vaca together with upwards of 20 Troops all aboard of Wm. A Turner the other Articles will be here Waiting your Orders unless sooner Called for ~~[illegible]~~ from the Army.

If safe Storage and a Force adequate to protect them should be ~~[illegible]~~ at Copino and a determination to Continue it I would Advise the Forwarding this Shipment by Inland Boat Passage to Copino and all in future Shipped from N. O. direct to Copino. If such is not the determination I would advise the Consignment to myself (Subject to be Ordered by my Agent left at the Pass who is the Pilote) and the Contract can be so made in N. Orleans that I can Order them to La Vaca or Matagorda from the Pass without any additional Charge or If Circumstances Require I can send them to Copino or further west being advised to do so.

You will please Receive Assurances of my readiness to render any services to the Public which Circumstances may make Necessary.
