Major Moody will see the note of Mr Lizzy Sherman, and by it it will be perceived that he admits that "the law passed by Congress" as he says was for $643.65 more than he claims. The law was not passed agreeably to the constitution, besides other objections there was no Quorum present. The accts can not be settled, under the pretended law. It will remain as it now is.

I have the honor &c
to the President

Sam Houston
