General Land office
City of Houston Nov 24th 1858

The foregoing and annexed account of Thomas Simons for surveying which appears to have been necessary to ascertain the true situation of the old surveys and prevent conflicts as well as to make a fair showing of Jackson County, I consider just & exclude the $12.00 for lines run not within its proper limits, and that the sum of one hundred and fifty dollars ought to be allowed the said Simons by the Government agreeable to the 40th section of the land law.
