upon the return of this Case I am still bound to pass it a second time all the laws upon the Subject declare the certificate of the Commandant of a Company in this Case it appears that Lieutenant Bowen was in command of the Company. the Law alluded to by the Hon. Comptroller was in regard to the land requiring before the land warrant should issue the certificate should be countersigned but if men want their pay I cannot see what Law there is to prevent this claim from being audited the Vigilance of the Comptroller is highly approved of by me. yet if claimant does Not have his claim countersigned he cannot require his Land warrant all of which is Respectfully Submitted

[illegible] auditor
